PRESIDENT'S MESSAGE

Spring is here and I am mowing the grass, so summer must be right around the corner. With the exception of a few large snowstorms (i.e., Super Bowl weekend) and the surprise late, sloppy and wet storm, I do not think the winter was that bad. Winter is rough sometimes, which can lead to flooding, but the water from our winters is needed by many, whether it be the farmers, the locks and dams, or the hydropower facilities.

I read a short article in a free publication I get, the topic of which was *listening and observing*. I am sometimes interpreted by others as a shy and quiet person, especially in meetings - those who know me better would likely disagree. I tend to listen to the thoughts of others before making a statement. I am not an expert on many topics and prefer to learn from what others can teach me before speaking... and, as the quote under my father's high school graduation picture in his yearbook states: *Think twice before you speak, especially if you intend to say what you think*. That being said, the alphas will always be there ready to take the lead (I do not think I am one of those!) and we need that type of leadership; the alphas tend to know how to lead while listening and observing.

I am a Geotechnical Engineer; we are trained to use the *Observational Method* developed by Karl Terzaghi. We make observations in the field and work with and listen to the Geologists to help us as we work through our projects. The other Civil Engineering disciplines also benefit from these listening and observation skills. When our students are on co-ops, I recommend that they keep a daily log or diary and to observe and listen while on the job. They can learn so much by intently listening to conversations between Civil Engineers and observing what Civil Engineers do during the course of a typical day on the job, and even more if the day is an atypical day when the true Civil Engineering knowledge, leadership, and skills are required to be utilized; I certainly did as a young Civil Engineer and continue to do so on a frequent basis. I think we can be more effective in our careers if we *listen* and *observe* more often than we are *heard* by others.

Mark Meyers, P.E., M.ASCE
ASCE Wisconsin Section President

SECTION BOARD UPDATES

The Wisconsin Section has endorsed Tom Walther in his candidacy for ASCE President Elect. The Northwest, Southeast, and Southwest Branches have also endorsed Tom.

Good luck in the process, Tom!

CANDIDATE ENDORSEMENT

Friday, March 13, 2015

TO: Thomas R. Walther, P.E., F.ASCE
walthert@charter.net

RE: Endorsement of Thomas R. Walther, P.E., F.ASCE
Official Nominee for position of
ASCE President Elect for 2016

The Board of Direction of the Wisconsin Section of ASCE met on Wednesday, March 11, 2015 to consider endorsing the nomination of Thomas R. Walther for the position of ASCE President Elect for ASCE fiscal year 2016. The Board reviewed candidate information and discussed issues of relevance. Upon conclusion of the discussions, the Board voted to endorse the candidacy of Mr. Walther for the position of ASCE President Elect for 2016.

Please accept this document as the official letter of endorsement of the above named ASCE Organizational Entity for the candidacy of Thomas R. Walther, P.E., F.ASCE for the position of ASCE President Elect for 2016.

Respectfully submitted,

Kenneth R. Mika, P.E. M.ASCE
Secretary/Board of Directors, ASCE Wisconsin Section

Civil Engineers-Designers and
Builders of the Quality of Life

BRANCH UPDATES

NORTHWEST BRANCH

2015 ASCE Wisconsin Section Spring Technical Conference

The 2015 ASCE Wisconsin Section Spring Technical Conference (STC) was held in La Crosse for the first time ever on March 12th. This year's event attracted more than 150 people to the sunny west coast of Wisconsin. The weather allowed for eagle watching and Mississippi River viewing right from the venue's windows. The event was a smashing success for the Northwest Branch. Mike Binsfeld prepared the following summary of the day's events (originally published in the Northwest Branch April 2015 newsletter):

2015 ASCE Wisconsin Section Spring Technical Conference By Mike Binsfeld

The 2015 ASCE Wisconsin Section Spring Technical Conference (STC) was held in La Crosse for the first time ever on March 12th. This year's event at the La Crosse Center attracted more than 150 people to the sunny west coast of Wisconsin. The weather allowed for eagle watching and Mississippi River viewing right from the venue's windows. The event was a smashing success for the Northwest Branch, which was chosen by the Wisconsin Section as this year's host. Photos of the event are included at the end of this article.

For those who may have missed it, the Spring Technical Conference is held annually to provide an excellent forum for ASCE members to learn about a broad array of topics relating to various engineering disciplines. The keynote speaker at this year's event was Mark Gottlieb, the Wisconsin Secretary of Transportation, who provided an outstanding presentation on current transportation projects, state budget forecasts, and new regulations. During the lunch hour, Richard Kyte, Director of the D.B. Reinhart Institute for Ethics and Leadership at Viterbo University in La Crosse, gave an excellent ethics presentation regarding decision-making in work and life. He described the four-way method for ethical decision-making, including truth, consequences, fairness and character.

Mr. Mark Woodson, national ASCE President-Elect, was the general session speaker. Mr. Woodson presented on the status of ASCE, Raise the Bar initiative, and Sustainability. His presentation was a great look inside the current workings of ASCE and where the organization plans to take its next steps. Will Kratt, event organizer, suggested that Mr. Woodson drive through "Bluff Country" along the Mississippi River on his way to Minneapolis; we sincerely hope that Mr. Woodson enjoyed the beautiful scenery of Wisconsin and Minnesota.

Awards and recognition were presented after the general session. Wisconsin Section Outstanding Civil Engineering Scholarships were awarded, and ASCE Life Members were recognized. The event ended with award recipients enjoying a photo opportunity with Mr. Woodson.

Throughout the course of the day, there were three breakout sessions, each showcasing four speakers who presented on topics that included unique trends in the industry, recently completed or ongoing and challenging projects, and new governmental compliance and regulations. The topics included water resources and environment, sustainability, transportation, structures, geotechnical, and construction.

The event had 16 individual sponsors, each of whom exhibited their respective company's products and services with booths. The STC affords sponsors an opportunity to engage and showcase with the Midwest's top engineering and consulting firms, construction material suppliers, contractors, and government agencies. It was a great opportunity for vendors to promote their organization's abilities, increase product familiarity, and make strategic contacts at the STC. We are especially appreciative for platinum sponsorships by Brennan and ADS, as well as gold sponsorships by ACH Foam Technologies, HOBAS pipe, Mathy Construction, and StormTrap.

Thank you to all event attendees and special thanks to the event sponsors. We're looking forward to hosting future ASCE Wisconsin Section Spring Technical Conferences and Annual Meetings, ultimately bringing more Wisconsin Section ASCE events to our branch locations!

An especially large thank you goes out to the STC core planning committee consisting of Will Kratt, Mike Binsfeld, and Kris Roppe. Because of their hard work and determination, the Northwest Branch made a stellar first impression to the rest of the Wisconsin Branch. Well done, Will, Mike and Kris!

The La Crosse Center was a fantastic venue.

Dan Borchardt, Wisconsin Section President-Elect, welcomed everyone to the conference.

Secretary Gottlieb had a wonderful presentation about Wisconsin's transportation system.

The STC had excellent technical sessions.

Break times allowed for networking with other engineers and the conference sponsors.

Mr. Kyte's presentation was a big part of the conference and was well received.

ASCE Northwest Branch Newsletter

April 2015

Mr. Woodson, 2014 ASCE President-Elect, discussed the direction of ASCE, the Raise the Bar initiative, and sustainability.

Congratulations to the newest ASCE Life Members! Pictured from left to right: Mark Woodson, Patrick Ries, Randolph Videkobich, Neal Gruber, David Pantzloff, and Dan Borchardt.

Your friendly and hardworking Northwest Branch Board: Teresa Davis, Kris Roppe, Mike Binsfeld, Will Kratt (STC Chair), and Andrew Walters (Jess Felix not pictured).

The dedicated and phenomenal Spring Technical Conference planning committee, from left to right: Kris Roppe, Mike Binsfeld and Will Kratt. They represented the Northwest Branch and worked above and beyond what had been done at other similar conferences in the Wisconsin Section. Excellent work!

Beautiful La Crosse civil engineering landmarks (Cass Street bridges) were another highlight of a great day!

Destination Imagination - April 18th at UW-Stevens Point

More than 100 Wisconsin youngsters recently participated in the 2nd Wisconsin Destination Imagination (DI) Affiliate State Tournament held at UW-Stevens Point. Destination Imagination is a creative problem solving competition. Volunteers that assisted with the ASCE/WSPE exhibitor booth include Andy Walters with AET, Angie Hanz with USDA, Kevin Staus with Indian Health Services, and Dan Borchardt and Scott Martin with MSA. The volunteers helped at the related Creativity Expo and led a skyscraper-building challenge. Dan said his unofficial record of a 57.75-inch skyscraper prepared the night before the competition was surpassed by a group that built one 62.5 inches tall. They named their skyscraper Manolo.

The ASCE NW Branch and WSPE Wisconsin Valley Branch co-sponsored an exhibitor booth with a \$600 donation to the organization. Dan is president-elect of the Wisconsin Section of the American Society of Civil Engineers and ASCE northwest Branch K-12 outreach coordinator.

COMMITTEE UPDATES

Are you looking to get involved in ASCE? How about joining an existing Wisconsin Section committee? There are plenty to choose from. In fact, two committees are currently without any members, and need some new energy. If you are interested in revitalize the Public Affairs Committee or the Public Relations Committee, we could use your help.

From the Wisconsin Section Administrative Manual, the Public Affairs Committee's charge is as follows: "The Committee shall be responsible for analyzing proposed legislation, and matters and projects of concern to the public and promoting action in a spirit of public service."

Similarly, the Public Relations Committee's charge is: "The Committee shall promote and advance the general public image of the civil engineering profession and the American Society of Civil Engineers by providing and arranging for dissemination of information about the Section and its members in technical and non-technical publications, newspapers, radio, and television."

More information on these and other Wisconsin Section committees, see the Administrative Manual on the Wisconsin Section website, at <http://www.ascewi.org/administrative-manual/>.

Please contact Mark Meyers at meyersm@uwplatt.edu or Peter Nilles at pmbnilles@gmail.com if you are interested in increasing your committee involvement.

CONGRATULATIONS AND KUDOS

Who doesn't like receiving congratulations and kudos? One way to get them is to win an award. How can you win an award? Many times you need to submit an application. Larry Ryan, chair of the Awards Committee, would like remind Wisconsin Section members of Individual Achievement, Engineering Achievement and Journalism awards, which the Section would love to use to recognize deserving individuals and projects. The deadline for the nominations is June 1. Please see the following for more information:

ASCE Wisconsin Section Annual Meeting Award Nominations

The Wisconsin Section is currently accepting nominations for awards in the following categories:

- **Engineering Achievement Awards**
 1. Category A – Projects less than \$2,000,000
 2. Category B – Projects greater than \$2,000,000 and less than \$10,000,000
 3. Category C – Projects greater than \$10,000,000 and less than \$20,000,000
 4. Category D – Projects greater than \$20,000,000
- **Individual Achievement Awards**
 1. Distinguished service
 2. Young Civil Engineer
 3. Engineer in Education
 4. Engineer in Consulting
 5. Engineer in Government
 6. Engineer in Private Practice
- **Journalism**

The awards in these categories will be presented at the Annual Meeting to be held on Friday, Sept 25, 2015 at the Crowne Plaza Hotel in Madison.

The Secretary of the Wisconsin Section must receive all nominations by June 1, 2015. Stories for which the Journalism Award nomination is being submitted must have been published between April 1st of the previous year and March 31st of the year in which the nomination is being submitted.

The Jury of Judges reviews the Engineering Achievement Award nominations. All other awards are determined the Section's Nominations Committee.

For further information with respect to the requirements for nomination in each category, and for the necessary submittal forms, please go to the Wisconsin Section website at <http://www.ascewi.org/awards/>. Award information is contained under the tab labeled Wisconsin Section Award Nomination/Entry Forms located at the bottom of the page. You may also contact the Section Awards Committee Chair at the following address:

UPCOMING EVENTS

WISCONSIN SECTION ASCE BOARD ELECTIONS

The Wisconsin Section Board has nominated the following candidates for the 2015-2016 Section year officers.

- Vice President-Justin Bilskemper
- Treasurer-Julie Hoppe
- Director at large (vote for two)
 - Jesse Jefferson
 - Matt Dahlem

More information on each candidate is provided on the enclosed paper ballot or the electronic ballot on SurveyMonkey.

The Board recommends a vote for each nominated candidate. You will find an email with a link to the election, or utilize the enclosed ballot to vote for these candidates or write in a candidate of your choosing. All ASCE members who have paid their 2015 Wisconsin Section dues have the right to vote and are eligible to hold office. Elected officers will serve for the 2015-2016 fiscal year, taking office at the September 25, 2015 Annual Meeting.

If you use the emailed link results will be automatically recorded. Alternatively, please email a scanned version of the completed ballot to kmika@naturalrt.com, by May 31, 2015.

14TH ANNUAL ASCE BREWERS TAILGATE

Friday, May 8th at Miller Park in Milwaukee. Help the Southeast Branch Younger Member Group cheer on the Brewers as they take on the Chicago Cubs. Southeast Branch members, check your emails for additional details and registration information.

SOUTHEAST BRANCH SCHOLARSHIP GOLF TOURNAMENT, PRESENTED BY GROUND IMPROVEMENT ENGINEERING AND THE GEOPIER® TECHNOLOGY TEAM

The date: Friday, June 12, 2015. The place: Ironwood Golf Course, Sussex, WI. The time: 10:30 a.m. (shotgun start). The reason: SCHOLARSHIPS!

Please check your email for registration details.

All proceeds from the golf tournament will go to support the ASCE Wisconsin Section Southeast Branch Scholarship Fund. Last year, due to your generous support, we were able to add a fourth scholarship, giving another student some much needed help. Please plan on golfing in the outing or becoming a sponsor at one of the many levels available.

Sponsored by your Geopier® Technology team.

ASCE WISCONSIN SECTION ANNUAL MEETING

The 2015 Annual Meeting is scheduled for Friday, September 25, 2015, and will be held at the Crown Plaza Hotel in Madison, WI. More information will be coming.

PROFESSIONAL DEVELOPMENT OPPORTUNITIES

Are you looking for some professional development opportunities to bolster your technical skills? Do you need continuing education credits? Check out the programs being offered by ASCE's Continuing Education Department. The following table summarizes upcoming Continuing Education Seminars and Workshops being offered in Region 3:

Program	Full Dates	City
Deep Foundations: Design, Construction, and Quality Control	April 30–May 1, 2015	Cleveland, OH
Earth-Retaining Structures: Selection, Design, Construction, and Inspection — Now in an LRFD Design Platform	May 14–15, 2015	Cincinnati, OH
Design of Foundations for Dynamic Loads	June 3–5, 2015	Minneapolis, MN
Design and Strengthening of Shallow Foundations for Conventional and Pre-Engineered Buildings -Newly Updated for 2012 IBC and 2011 ACI-318	June 11–12, 2015	Chicago, IL
Design and Construction of Launched Bridges	July 23–24, 2015	Cincinnati, OH
Fire Protection and Detection Systems for Civil Engineers: Analysis, Design, Inspection, Testing, and Maintenance — NEW	August 13–14, 2015	Chicago, IL
Aluminum Structural Design with the 2015 Aluminum Design Manual —NEWLY UPDATED	September 10–11, 2015	Minneapolis, MN
Dam Breach Analysis Using HEC-RAS	September 23–25, 2015	Chicago, IL

For more information on these Region 3 offerings, please contact Jackie Simon, Manager, Geographic Services at ASCE, at jsimon@asce.org.

Also, see the ASCE website at http://www.asce.org/continuing_education/ for additional continuing education opportunities.

CALENDAR OF SECTION EVENTS

The calendar is simply a guide and may change throughout the year:

APRIL:

- April 17 – PE, PS, and SE Vertical Exam
- April 18 – SE Lateral Exam
- Voting for Wisconsin Section officers and Board members

MAY:

- Wisconsin Section Board meeting
- Voting for Wisconsin Section officers and Board members

JUNE:

- June 1 – Nominations due for Individual Achievement, Engineering Achievement and Journalism Awards to the Wisconsin Section Secretary

INVOLVEMENT OPPORTUNITY REQUEST

If you have Involvement Opportunities (example - community service event or organization) for Wisconsin Section Members that you would like featured in the Wisconsin Section Newsletter, email Peter Nilles at pmbnilles@gmail.com with a detailed description of the opportunity and help needed.

ASCE Wisconsin Section Website has been updated. Please visit it at <http://www.ascewi.org/> to stay up to date on events. There are also links to the four branches within the Wisconsin Section.

UPDATE YOUR ASCE MEMBERSHIP

UPDATE ASCE ONLINE PROFILE REGULARLY

Please update your ASCE online profile with current e-mail and mailing addresses to guarantee you receive ASCE newsletters and important information. As a reminder, those of you that have passed your PE exam, make sure to change your account with ASCE National. To update your ASCE profile, go to www.asce.org or call (800) 548-2723.

April 30, 2015
Re: 2015-2016 Voting Ballot
Dear ASCE Member:

The official voting ballot for the Wisconsin Section of the American Society of Civil Engineers is located below. The deadline for submitting votes is **MAY 31, 2015**. **Please email a scanned version of the completed ballot to kmika@naturalrt.com.** You may also if you so choose mail a hard copy of the ballot to the address below. It is important that you vote even if there is only one candidate for the board position. You are also welcome to write in Wisconsin Section Members that you feel would make great board members. Autobiographies for the candidates are provided.

If returning voting ballot by mail please mail the completed ballot to the following address.
Ken Mika, P.E.
Secretary—American Society of Civil Engineers
234 W. Florida Street, 5th Floor
Milwaukee, WI 53204

Candidate Autobiographies

Vice President – Justin Bilskemper, PE: Justin is a registered professional engineer at the Madison, Wisconsin office of Strand Associates, Inc. He has been employed at Strand for nearly 9 years and has worked primarily on municipal and water-supply related projects, such as water system studies and master plans, well and facility design, hydraulic computer modeling, and wellhead protection planning. Justin has been active in ASCE since being a student at the University of Wisconsin - Platteville where he received his Bachelor of Science degree in Civil Engineering in 2006. Justin has been a Director-at-Large on the Wisconsin Section Board since 2011 and a Director on the Southwest Branch Board since 2012. At the Branch level, Justin also served as Scholarship Committee Chair from 2006 through 2014, Secretary from 2008 through 2011, and was part of the Younger Member Executive Committee from 2011 through 2014. In addition, Justin has served on the 2007, 2009, 2010, 2012, 2013, and 2015 conference planning committees.

Treasurer – Julie Hoppe, PE: Julie is the Transportation Services Manager for the Wisconsin office of exp US Services. She has been active with the ASCE Wisconsin Section, serving as the Chair of the Transportation Committee between 2000 and 2014, and on the Board of Direction and serving as President in 2013. She was the President of the Wisconsin Section of the Institute of Transportation Engineers in 1997, Treasurer of the ITE District 4 in 1998, and past Chair of the Business Practices Committee of the American Council of Engineering Companies of Wisconsin.

Director at Large – Jesse Jefferson, PE: Jesse graduated with a Bachelor of Science in Civil Engineering from Michigan Technological University in 2007. While at Michigan Tech, he was active with the ASCE student chapter and was a member of the concrete canoe team. Currently, Jesse is the Central Region Geographic Member and Secretary of the ASCE Committee on Younger Members and will be the incoming Chair of the committee this fall. He previously served for three years on the Southeast Branch Younger Member Group as Treasurer and Vice-President. With the Southeast Branch, Jesse was active in volunteering or leading mentoring activities such as local school visits, MATHCOUNTS, Future City, Habitat for Humanity and Rube Goldberg. He was also an integral part of the 2013 Central Region Younger Member Council Planning Committee and the inaugural STEM Expo Planning Committee, hosting successful events for both. Jesse was also the recipient of the 2012 ASCE Wisconsin Section Younger Member of the Year. In his 8 years out of college, Jesse has worked in transportation and traffic design where projects have brought him to Wisconsin, Minnesota, and Colorado. His experience covers a wide variety including airport design, roadway design, construction management, maintenance of traffic and construction staging, rail design, and bike and pedestrian design. Jesse has recently moved back to his hometown of Eagle River with his wife, Jen and Yellow Lab, Stella where he has accepted a Transportation Project Engineer position with MSA Professional Services in Rhinelander.

Director at Large – Matt Dahlem, PG: Matt has over 15 years of environmental engineering consulting experience in Wisconsin, with a technical background in both engineering and hydrogeology. Matt has knowledge of Wisconsin environmental regulations and expertise in site investigation & remediation, regulatory compliance, due diligence, site redevelopment, legal support, risk reduction, project management, budget control, resource management, and environmental engineering design. Matt is an associate member in ASCE Wisconsin Section (Fox River Valley Branch) along with belonging to the EWRI and GI groups within ASCE. Matt would try and get out there as an ASCE spokesman in efforts to recruit engineers to join ASCE. Matt attends all the Wisconsin Section Branch's technical conferences (NW, SW, SE and Fox River Valley), and attends as many Fox River Valley Branch monthly meetings as possible. Matt has also attended multiple ASCE scholarship golf outings, and did a booth sponsorship at the Fox Valley Branch technical conference in Neenah in Fall 2014. Matt is a Registered Professional Geologist: Wisconsin (#1279-013), Registered PECFA Consultant: Wisconsin (#1085352) and a member of the American Institute of Professional Geologists (AIPG), Geological Society of America (GSA), Wisconsin Groundwater Association (WGWA) and Association of Environmental and Engineering Geologists (AEG).
